B42

Cradle B42 For Customized Abutment

مشخصات فنی میلینگB42

Size：65×65×175CM	Weight：380Kgt	Voltage：220V50HZ or 110V60HZ（optional）
Power：4.0KW	Air pressure：0.5~0.8MPa	Spindle speed：60000 rpm
Processing accuracy：＜0.01mm	Bur quantites: 15 pcs	Cooling method: Water cooling
Large rotation angle： A axis is ±360°		
Processing material: Premill, Glass-ceramic / Titanium Disc, PMMA , PEEK（Optional）		
Processing type: Premill abutment, Full crown, Inlay, Veneer/ Temporary crown(Optiona)		
Processing speed: Premill abutment（15 minutes/ pcs）, Glass-ceramic（10~30 minutes/ pcs）, Metal crown（25 minutes/ pcs）, Titanium Framework(180 minutes/ pcs)		

ویژگی ها

- Simple & Elegant UI
- 8pcs premill
  pcs Galss-ceramic 4
- Top class mechanical
  electrical parts
- High accuracy
- High quality spindle
- Industry casting steel structure
  ensure more stable operation
- Protection module power
  againstfailure and low air pressure
- hours 24
  continuously run
