

UDS-J2 LED ULTRASONIC PIEZO SCALER

Excellent performance!

Industrial design patent No.: CN 201130027363.1

- ✓ Sealed handpiece with light, better visibility.
- ✓ The handpiece sleeve can be autoclaved.
- ✓ Automatic frequency tracking.
- ✓ Automatically search the best working frequency.

G1×3 G2 P1

P1 used for subgingiva calculus elimination

UDS-J2 LED

Advantages:

- Eliminating the dental calculus, bacterial plaque and tea scales on the teeth quickly without hurting the gum or the enamel
- Automatic frequency tracking ensures that the machine always works on the best frequency.
- The adjustment range of the amplitude is much wider than before.
- The new solenoid valve can better control the water.
- The new water control switch makes the adjustment of the water more convenient.
- Small and light, easy operation, concise and artistic exterior, easy to clean and maintain.
- The handpiece is cast from Titanium alloy to ensure mechanic function and durability.
- Assembled with excellent piezo-ceramic, the handpiece has high and long lasting power and generates little heat.
- The material of the handpiece made in America is appointed as aero components in Europe and America, which is FDA and NSF certificated.
- The cable is made from silica get tube, soft and durable.
- The scaler tip is made of special material. The cavitation produced from the end of the scaling tip makes the cleaning of teeth and the killing of germ easy.
- 3 pieces of autoclavable handpiece sleeve, and 5 pieces of scaler tips attached: G1×3, G2×1, P1×1.

Technical specifications:

| | | | |
|--------------|--|-----------------------|---------------------------------|
| Power Input | 110V~ 50Hz/60Hz 220-240V~ 50Hz/60Hz | Dimensions | 137mm×95mm×213mm |
| Frequency | 30kHz±3kHz | Water Supply Pressure | 0.1bar~5bar (0.01MPa to 0.5MPa) |
| Output Power | 3W~20W | Main unit weight | 1.7kg |
